**\*Please note that this RTP plan and are based on guidelines from the CDC, local/state government agencies and can be adjusted, modified based on the health and safety of our community and membership. All sessions are optional as we know some people may not be prepared to practice or return to soccer.**

In response to the COVID-19 Pandemic Birmingham United Soccer Association has created a series of steps and protocols for a return to play plan. These steps and actions have been developed in conjunction with local and state medical experts, and in conjunction with soccer governing bodies from US Club Soccer to USYS.

Our Return to Play Action Plan addresses many critical details that must be followed by all players, parents and coaches to ensure the safety and health of everyone in our community. The RTP plan allows flexibility regarding the length of the plan based on the rapidly changing information on the recent pandemic.

These Recommendations for Returning to Competition (the “Recommendations”) are provided to assist youth soccer clubs in safely and gradually resuming club-to club soccer competition while reducing infection risk in the setting of the ongoing COVID-19 pandemic. These Recommendations do not supersede or replace any applicable local, state, regional or federal health guidelines or requirements, which should be adhered to by all clubs. Each club should conform to the guidelines and requirements that apply to them and should routinely monitor any changes to these guidelines and requirements.

**\*Please note that this RTP plan and are based on guidelines from the CDC, local/state government agencies and can be adjusted, modified based on the health and safety of our community and membership. All sessions are optional as we know some people may not be prepared to practice or return to soccer.**

## GENERAL RECOMMENDATIONS

General hygiene practices to reduce the risk of spread of infection: As previously outlined in our “Recommendations on Return to Play in a Training Environment,” the following practices are recommended to mitigate transmission of communicable disease, including COVID-19.

- Avoid touching your face.
- Frequently wash hands with soap and water for at least 20 seconds or use an alcohol-based hand sanitizer.
- Cover mouth and nose (with arm or elbow, not hands) when coughing or sneezing and wash hands afterward.
- Wear a face mask or covering at any time you are in public and unable to maintain social distancing.
- Frequently clean commonly used surfaces (doorknobs, for example) with an antiseptic cleanser.
- Avoid contact with other individuals (shaking hands, for example).
- Maintain a distance of 6 feet between you and others.
- Stay home if you feel sick and contact your health care provider

**\*Please note that this RTP plan and are based on guidelines from the CDC, local/state government agencies and can be adjusted, modified based on the health and safety of our community and membership. All sessions are optional as we know some people may not be prepared to practice or return to soccer.**

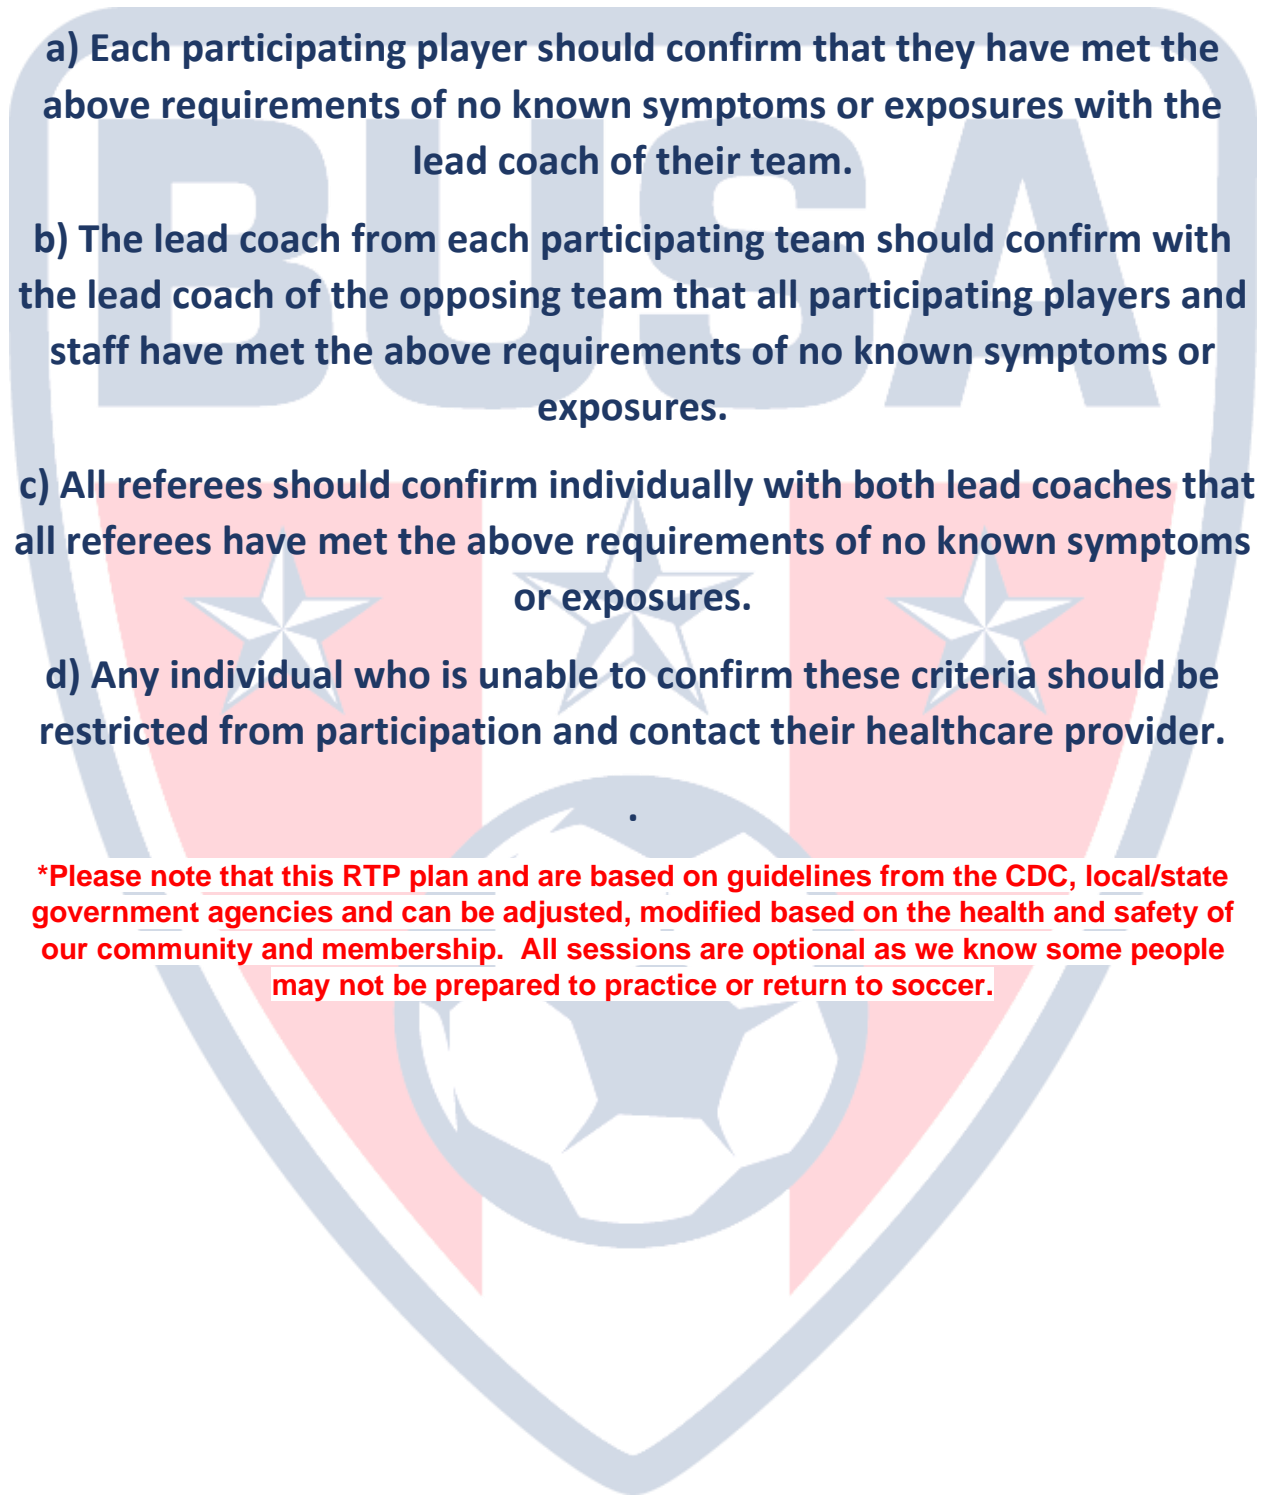

## PHASE 4 (Return to Competition)

Competition facilities are open, any local restrictions allow for a gathering size that would accommodate all players, coaches, referees, facility staff and spectators in attendance, and there are otherwise no local guidelines or restrictions that would preclude travel to, or participation in, youth soccer competition. (BUSA may consider limiting spectator attendance in one way or another if open attendance may result in numbers above gathering size limitations.)

- Any individual reporting or demonstrating symptoms of illness at any point should be removed from competition (or restricted from competition) and should seek guidance from his or her healthcare provider before returning to soccer activities. Prior to participation, staff should obtain verbal confirmation from each participating player that:
  - Each player, coach, and referee should check his/her temperature at home, and refrain from participation if he or she has a fever ( $\geq 100.4$  degrees F).
  - All coaches, players, referees, and other attendees should be monitoring for symptoms at home to ensure that:
    - a) He/she has not had any close contact with a sick individual or anyone with a confirmed case of COVID-19 (see Appendix C);
    - b) He/she has not had a documented case of COVID-19 in the last 14 days;
    - c) He/she is not currently demonstrating or suffering from any ill symptoms (see Appendix A).
    - d) Any individual who is unable to confirm these criteria should be restricted from participation and contact both their club and their healthcare provider.

**These criteria should be confirmed verbally on arrival as follows:**

- 
- a) Each participating player should confirm that they have met the above requirements of no known symptoms or exposures with the lead coach of their team.
- b) The lead coach from each participating team should confirm with the lead coach of the opposing team that all participating players and staff have met the above requirements of no known symptoms or exposures.
- c) All referees should confirm individually with both lead coaches that all referees have met the above requirements of no known symptoms or exposures.
- d) Any individual who is unable to confirm these criteria should be restricted from participation and contact their healthcare provider.

**\*Please note that this RTP plan and are based on guidelines from the CDC, local/state government agencies and can be adjusted, modified based on the health and safety of our community and membership. All sessions are optional as we know some people may not be prepared to practice or return to soccer.**

**PHASE4:****DURING COMPETITION (Practice and Games)**

- Soccer play can be conducted as normal with the following exceptions:
  - a) Team pre-game and post-game handshakes should be avoided.
  - b) Handshakes or contact in substitution should be avoided.
  - c) Physical contact should be avoided during celebrations and post-game activities.
  - d) Social distancing should be ensured between players and coaches on the sideline during play and during any individual or group conversations throughout the competition (pre-game, half-time, post-game).
  - e) No player, coach, or spectator should violate social distancing guidelines with a referee at any time.
  - f) Player pass cards should be handled only by the coach of the team, and should be disinfected after the game. (Referees should be shown the player pass cards in check-in, but not handle the cards.) Referees should track player substitutions with their own notes, and should not collect player pass cards.
  - g) Staff pass cards should only be handled by the staff member to whom it belongs. (Referees should be shown the staff pass card in check-in, but not handle the cards.) Referees should note the staff pass card was checked on the game report, and add all sideline staff member names to the report.

**h) Use of masks or cloth facial coverings by staff and players on the sideline should be guided by local or national guidelines regarding public use.**

**i) Players on the sideline or bench should remain socially distanced (6 feet apart) – including during pre-game, half-time, and post-game discussions.**

**j) International walk-outs should not be held.**

**All attendees should always maintain social distancing guidelines during arrival and departure from competition.**

- **Spectators should remain off the field, practice proper social distancing and utilize masks or cloth facial coverings throughout the event in accordance with local and national guidelines.**
- **BUSA Encourages parents to remain in cars at practice. (Parents may walk around fence lines but may not stop on fields)**
- **Spectators should maintain social distancing on the sideline during games and if they cannot need to wear a mask.**
- **In the event of an injury, staff may assess and facilitate management of the injured individual in accordance with proper first aid management. Family members and any on-site healthcare providers may participate in injury management as necessary, but others should maintain proper social distance.**

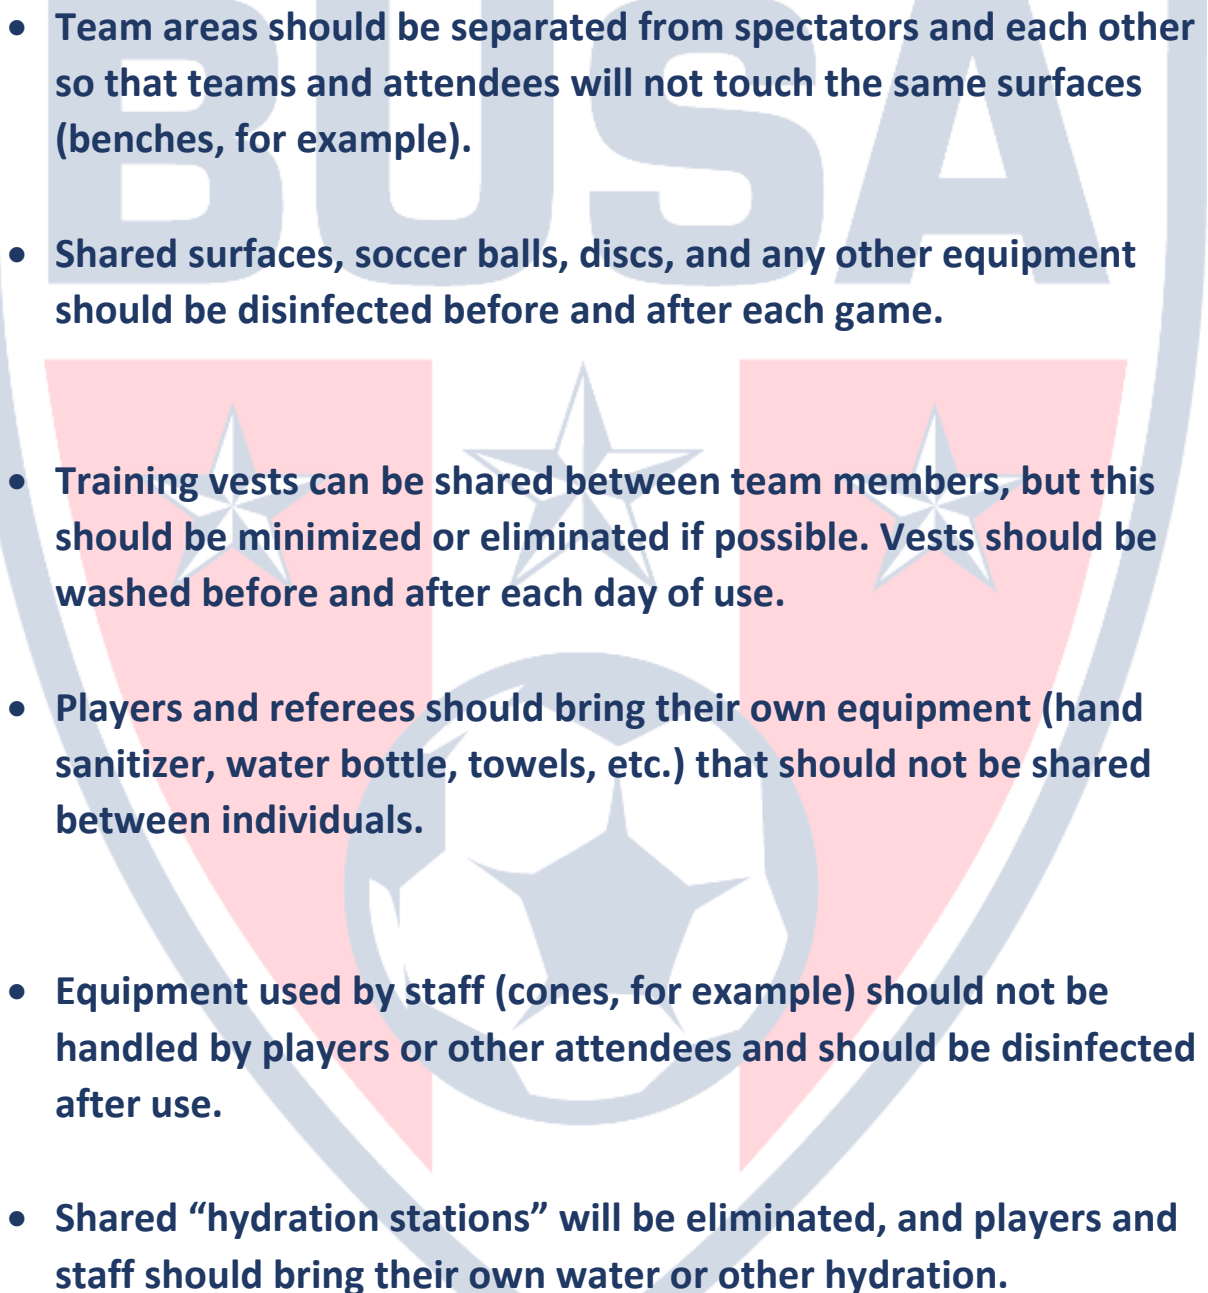

**PHASE4:****POST COMPETITION**

Clubs should have contact information for the lead staff member from each club that they have competed against prior to departure from the facility. Ideally this should be a designated staff member responsible for COVID-19 related matters.

- Clubs should communicate with the referee assignor (or other appropriate individual) to ensure that referees for each game are documented and the referee assignor has contact information for all referees.
- Any individual with a confirmed case of COVID-19 should notify their respective clubs immediately.
- Any referee with a confirmed case of COVID-19 should notify any clubs involved in competitions worked by that individual within the last 14 days.
- Any club notified of a confirmed case of COVID-19 in a player, staff member, or referee should notify any other organization involved in competition with that individual in the 14 days prior to the diagnosis of COVID-19.

**\*Please note that this RTP plan and are based on guidelines from the CDC, local/state government agencies and can be adjusted, modified based on the health and safety of our community and membership. All sessions are optional as we know some people may not be prepared to practice or return to soccer.**

**PHASE4:  
EQUIPMENT**

- 
- A large, light blue watermark of the BUSBA logo is centered on the page. The logo features the letters 'BUSBA' in a bold, sans-serif font. Below the letters is a shield-shaped emblem with a red background and a white soccer ball in the center. The shield is flanked by two red triangles, each containing a white star. The entire logo is enclosed in a light blue border.
- **Team areas should be separated from spectators and each other so that teams and attendees will not touch the same surfaces (benches, for example).**
  - **Shared surfaces, soccer balls, discs, and any other equipment should be disinfected before and after each game.**
  - **Training vests can be shared between team members, but this should be minimized or eliminated if possible. Vests should be washed before and after each day of use.**
  - **Players and referees should bring their own equipment (hand sanitizer, water bottle, towels, etc.) that should not be shared between individuals.**
  - **Equipment used by staff (cones, for example) should not be handled by players or other attendees and should be disinfected after use.**
  - **Shared “hydration stations” will be eliminated, and players and staff should bring their own water or other hydration.**

# COVID19 PROTOCOL

**IF YOU FEEL SICK OR  
HAVE A 100.4 TEMP  
STAY HOME**

**GET TESTED FOR COVID19**

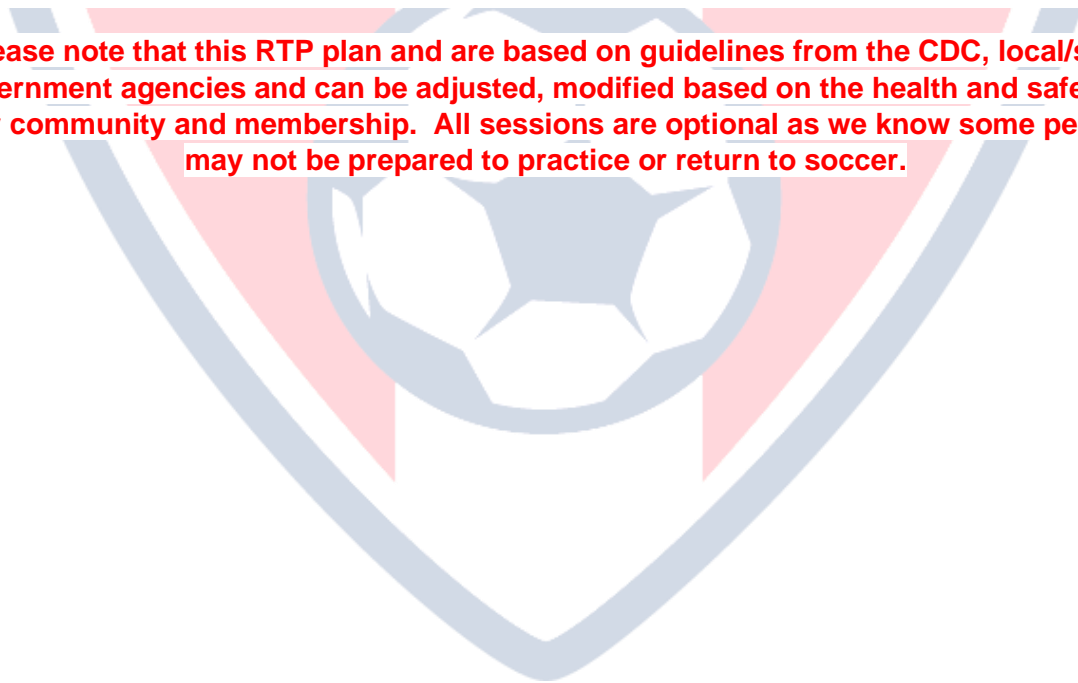

**IF THE TEST IS POSITIVE A 14 DAY SELF  
QUARANTINE IS MANDATORY**

## PLEASE INFORM COACH AND BUSA DIRECTORS

**\*Please note that this RTP plan and are based on guidelines from the CDC, local/state government agencies and can be adjusted, modified based on the health and safety of our community and membership. All sessions are optional as we know some people may not be prepared to practice or return to soccer.**

## Symptoms of COVID-19 Infection:

Individuals with COVID-19 can exhibit symptoms ranging from mild to life-threatening.

The most common symptoms associated with infection include:

- Fever ( $\geq 100.4$  degrees F)  $\sphericalangle$  Cough
- Shortness of breath
- Less common symptoms that may still be evidence of COVID-19 infection include:  $\sphericalangle$  Sore throat
- Congestion
- Nausea and vomiting
- Diarrhea
- Headache
- Muscle / joint pain
- Sudden loss of taste or smell
- Chills

**\*Please note that this RTP plan and are based on guidelines from the CDC, local/state government agencies and can be adjusted, modified based on the health and safety of our community and membership. All sessions are optional as we know some people may not be prepared to practice or return to soccer.**
